Warning: Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table in this document. You should read the relevant offering document (including the key facts statement) of the fund for further details including the risk factors.

^A "Net distributable income" means the net distributable income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant class of units, excluding net realized / unrealized gains / losses (if any). Net distributable income which is not declared and paid as dividends in a period of a financial year can be carried forward as net distributable income for the next period(s) within the same financial year. However, the net distributable income which has been accrued as at the end of a financial year but is not declared and paid as dividends at the next distribution date immediately after that financial year end will be included as "capital" for the next financial year end.

Note:

Payment of dividend is not guaranteed. The Manager has the discretion as to whether or not to make any distribution of dividends, the frequency of distribution and the amount of distributions, subject to the SFC's prior approval and not less than one month's prior notice to affected Unitholders. The Manager may at its discretion pay distribution out of, or effectively out of, capital of the Sub-Fund. Investors should note that the payment of distributions out of, or effectively out of, capital represents a return or withdrawal of part of the amount the investors originally invested or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of, or effectively out of, capital of the Sub-Fund may result in an immediate reduction of the net asset value of the relevant classes of Units. The information indicated above is for your reference only. Please refer to the "Distributions" section stated in the appendix of the Sub-Fund.
