

BOCHK All Weather Belt and Road Bond Fund

June 2025 (As of 30 May 2025)

Important Information

- BOCHK All Weather Belt and Road Bond Fund (the "Sub-Fund") is a Sub-Fund of BOCHK Wealth Creation Series.
- The Sub-Fund is to provide income and capital growth over the medium to longer term by investing primarily in fixed income securities issued by governments, government agencies, supra-nationals, banks or companies which are domiciled in or derive substantial revenue from or have significant business or economic activities in the Belt and Road countries/regions (Definition please refer to the Sub-Fund's relevant appendix and product key facts) or are denominated in the local currencies of the relevant Belt and Road countries/regions.
- Investment involves risks. The Sub-Fund involves significant risks including but not limited to market risk, concentration risk, emerging markets risk, risks relating to the Belt and Road Initiative, eurozone risk, currency risk, risks associated with debt securities rated below investment grade or unrated, general risks relating to debt securities (including but not limited to credit risk, interest rate risk, volatility and liquidity risk concerning debt securities in Belt and Road countries/regions, downgrading risk, sovereign debt risk, valuation risk and risk related to credit ratings), RMB currency risk/risks relating to RMB denominated securities, risks of investing in convertible bonds, risks associated with distribution out of capital, risks relating to hedging and the hedged classes, etc. Past performance is not indicative of future performance. The value of the Sub-Fund can be volatile. Investors may not get back the full amount of capital invested or may suffer significant loss.
- The Manager may at its discretion pay distribution out of, or effectively out of, capital of the Sub-Fund. Investors should note that the payment of distributions out of, or effective out of, capital represents a return or withdrawal of part of the amount the investors originally invested or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of, or effectively out of, capital of the Sub-Fund may result in an immediate reduction of the net asset value of the relevant classes of units.
- Investors should not solely rely on this document to make any investment decision. Please refer to the Explanatory Memorandum and the relevant appendix in detail (including the full text of risk factors stated therein) about the Sub-Fund. If you have any questions about the information of this document, please seek independent professional advice.

Investment Objective

The investment objective of the Sub-Fund is to provide income and capital growth over the medium to longer term by investing primarily in fixed income securities issued by governments, government agencies, supra-nationals, banks or companies which are domiciled in or derive substantial revenue from or have significant business or economic activities in the Belt and Road countries/regions* or are denominated in the local currencies of the relevant Belt and Road countries/regions*.

* "Belt and Road countries/regions" referred to herein means the Mainland of China, Hong Kong, Macau, Taiwan, and the cooperating countries which are listed on the official website of the Belt and Road Initiative hosted by the Chinese State Information Center, or announced by relevant Mainland Chinese authorities by other means, which may be updated from time to time.

Pertamina Hulu Energi PT 5.25% 21 May 2030	2.6%

Portfolio Characteristics

Average Yield to Worst : 5.6% p.a.*

Average Duration : 4.1 Years

* This figure is for reference only and is estimated based on the best judgement for the securities in the investment portfolio on the date shown by BOCHK Asset Management Limited. It does not represent future performance as well as actual performance. It excludes currency hedging income or cost and could fluctuate widely from period to period. The Sub Fund uses weighted average yield to worst (YTW) to show the Portfolio characteristic. YTW is the lowest potential yield that can be received on the bond portfolio without the issuer actually defaulting. YTW is calculated by making worst case scenario assumptions on the issue by calculating the returns that would be received if provisions, like issuer call.

Performance Chart (in USD & HKD)[§]

Total Return Performance[§]

	Cumulative	YTD	3 months	1 year	3 years	Since launch

"Payment of dividend is not guaranteed." The Manager has the discretion as to whether or not to make any distribution of dividends, the frequency of distribution and the amount of distributions, subject to the SFC's prior approval and not less than one month's prior notice to affected Unitholders. The Manager may at its discretion pay distribution out of, or effectively out of, capital of the Sub-Fund. Investors should note that the payment of distributions out of, or effective out of capital represents a return or withdrawal of part of the amount the investors originally invested or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of, or effectively out of capital of the Sub-Fund may result in an immediate reduction of the net asset value of the relevant classes of Units. The information indicated above is for your reference only. Please refer to the "Distributions" section stated in the appendix of the Sub-Fund. The calculation method of annualised yield: $[(1 + \text{Distribution per Share/Price on Ex-date})^{\text{distribution frequency in a year}} - 1]$. A positive distribution yield does not imply a positive return. Investment involves risks. Past performance figures are not indicative of future performance.
